AIR CLEANERS

**INNOVATIVE PRODUCTS FOR SOLVING
INDOOR AIR POLLUTION PROBLEMS.**

COMMERCIAL APPLICATIONS

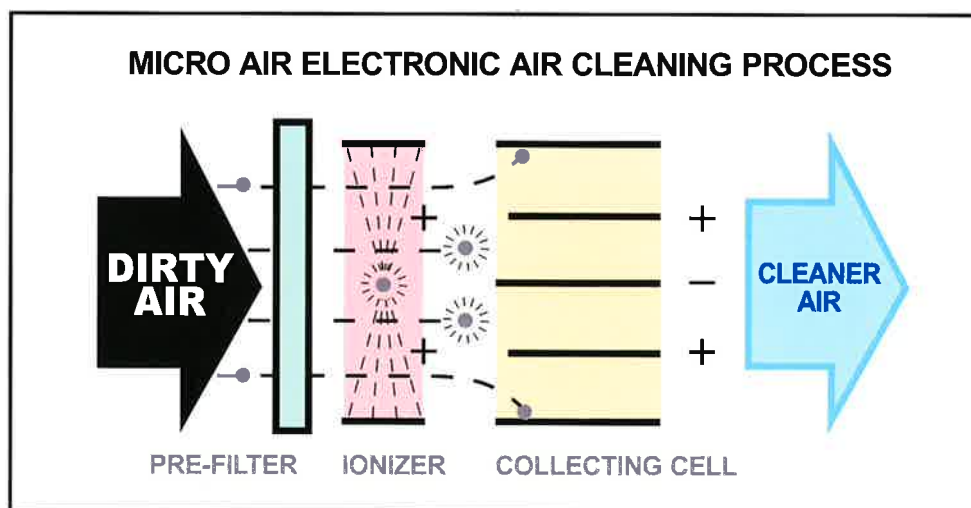

CLEANER AIR FOR BUSINESS

**OUR PROFESSIONAL SUPPORT AND SERVICE
CAN ENSURE SUCCESSFUL APPLICATION**

PROFESSIONAL SUPPORT ENSURES SUCCESSFUL APPLICATION.

All of our Micro Air products are sold and serviced by an international network of distributors. These air cleaning professionals are experts at analyzing and then recommending the right system for your needs.

HOW IT WORKS

Polluted air flows through a pre-filter, effectively removing the large particles. Then, the air moves to the ionizer section which charges the particles. They are then collected on the oppositely charged plates of the collecting cell. The air that is discharged is then pollution-free. An optional odor control module is available.

Micro Air electronic air cleaner removes particulate as small as 0.01 microns, (such as tobacco smoke) 24 hours a day. **WE REALLY CLEAN YOUR AIR !**

Model: CR 1000

Model: CR 1000

- Quiet operation
- Four-way adjustable grilles
- Solid state power supply
- Electronic filtration
- Low profile - extends only 3.5" from ceiling

MODEL :	CR 1000
Overall	
Dimension :	9" x 23" x 23"
Weight (lbs.) :	68
Power Supply :	220 VAC 50 Hz*
Area Coverage :	100 - 120 sq.m.

* option : 110 VAC 60Hz
